Footbridge over brook by Ham Barn/Quarry

Gloucestershire Public Rights of Way will be providing a new bridge to replace the broken existing bridge. There has been a delay with delivery, but with the kind offer by Aggregate Industries to collect it, we hope to have it installed soon.

New permanent speed sign for Reevey

The Parish Council has now received the funding from the Police and Crime Commissioner for the new speed sign at Reevey. The sign has been ordered and we hope to have it installed by the new year.

New community play facilities at Hazel View, Top Road, Kempsford

The Parish Council share resident's frustration at the time it is taking to get the new facilities open to the community. The good news is that the developers have now had the equipment inspected and the handover process has begun. Until the Parish Council has adopted the site it is not covered by our public liability insurance. We will inform you as soon as the handover is complete. Thank you for your patience.

There has been a number of burglaries, attempted burglaries and thefts of quad bikes during November in our area.

Residents may wish to consider signing up to the following 'Community Alerts Scheme' -

Your Community Alerts is Gloucestershire Constabulary's new, free messaging system that enables residents, businesses and community groups to participate in a two-way exchange of information about what is happening throughout the county. Whether you live in Gloucester, Cheltenham, Tewkesbury, Stroud, the Forest of Dean or the Cotswolds you can receive up-to-date messaging about incidents that may affect you.

Don't worry, we won't bombard you with every incident. You can choose exactly the type of alert you wish to receive. For example, you can help tackle crime by registering for witness appeals or keep ahead of those traffic jams by registering for road closure alerts. The aim is to send relevant information which is chosen by you and together we can make a greater impact on the prevention and detection of crime and anti-social behaviour in our communities.

The service is entirely free and you can receive the messages in a way that suits you. You may subscribe to alerts via text, an alert through the mobile app, a text or a voicemail. The choice is your hands.

Visit www.yourcommunityalerts.co.uk/ for further information.

December 2017

Dear Friends and neighbours

As the dark nights draw in we're waking up in the dark, getting out to do our daily activities in the cold and damp and then coming home in the dark. My dog-walking regime has been severely curtailed - I'm definitely not a fan of walking dogs by torchlight!

Many of us don't mind too much the shortening days; it's a great excuse for 'staying in evenings' with open fires and mugs of hot chocolate (or is that just in the films?!). For some, however, darkness is a real problem with a lack of sunlight causing low mood and, for a few, more serious depression.

And yet we're approaching Christmas with its twinkling lights all round us. I write this in mid-November and my husband has already seen the first Christmas tree decorated in someone's home! For some though, it doesn't matter how many lights the village is festooned with, it's still dark; perhaps it is for you.

You may be facing the first Christmas on your own without someone you love, or maybe either you or a family member are facing illness or a personal crisis. Perhaps you are lonely or simply worn out with life.

If this is you, then the Christmas message is very much yours this year. I don't mean the Hollywood 'everything is perfect' sentimental one we see in Christmas adverts, (though some are very endearing) but the real message: Jesus being born in into a dark world of political upheaval and uncertainty, a world of pain and loss. Jesus being born as a human being to experience everything that we do so that He can truly understand the darkness that we face in our own lives and journey with us. But the greatest part of the message is that Jesus comes to us as the true light of the world; to shine hope where we feel despair, to reveal joy in the darkest of situations.

The light is coming. Come the 21st December the days will start getting longer and we will start to see the return of the sun. This Christmas and New Year I pray that you will know the light of Christ in each of your lives.

With every blessing,

Lynn,

Assistant Curate

Possible closure of all unsurfaced roads – 2026

You may or may not know that as things stand under the Deregulation Bill, some unsurfaced roads could be extinguished in

2026. These are shown on ordnance survey as routes with green dots (not diamonds - diamonds are national trails and can have many statuses).

Unsurfaced roads/ORPAs (Other Routes with Public Access) have generally been regarded as having full multi-user access, as they are recorded in the county's book of roads, and are maintainable at county expense.

However, DEFRA has informed all local authorities that being historically maintainable by the county is not the same as actually having legal rights to use them. This means that rights for horse riders, cyclists and walkers/runners, disability scooters/trail riders/carrriage drivers etc. will be extinguished from these roads unless these rights can be shown on the definitive map. This requires checking all routes against both records (Highways and PROWs) which we have started, and where they are not shown as having PROW status, applying for modification orders. This entails researching Enclosure Award, Finance and Tythe maps - for every unsurfaced road in the county!

The British Horse Society is running a day course at Bicester, Sunday Nov 19th for ANYONE interested in learning how to research the records. As chair of Mid Cotswold Tracks & Trails Group, I will be attending. It is free to attend, but you should take a packed lunch and a lap top. If anyone is interested please email hannah.marsh@bhs.org.uk for more details and to book in. Research will include finding mapping in the record office for Enclosure Award, Finance and Tythe Maps etc.

The task for us users in Gloucestershire is going to be huge, and we strongly believe that a cross-section group of riders, walkers, cyclists and historians is the only realistic way to approach this to try to get all areas covered without duplication. We already have some mapping with roads numbers added and hope to do a little more on this before the talk day and would be pleased to share this. (hard copy at the moment - I need help to get this digital in some way in the future. MCTTG has digital OS mapping license for sharing with group members etc.)

There is a possibility that the government will alter this decision before the deadline, as it appears to us that we will be presenting the county with masses of modification order applications, and that this will be replicated nationwide which will massively overload the system even more than it already is. We are preparing our own letter to MPs to ask for the bill to be amended to add Restricted Byway status to all unsurfaced roads, however, we do think that we should try to get a team together and make some preparations as they may persist with this.

We are trying to contact as many interested parties as we can - please pass this message to anyone who may be interested, or send us contact info for any other groups you know of.

Although we are a British Horse Society affiliated group, we have been working with several other parties on various multi-user track issues, and believe that all working together for self-help action and fundraising is the only real way of getting track improvements in the current financial situation. See our facebook page for more or email me to chat.

Signing a new contract? Advice from Citizens Advice Cotswold District

How many of us have ‘signed on the dotted line’ or consented to the Terms and Conditions without *really* knowing what we have agreed to? Contracts can carry a great deal of risk for consumers, especially as they are often formed at a distance (i.e. when ordering a product online). This method of contract denies you - the consumer - an opportunity to ask the supplier questions **or have the ‘Terms and Conditions’** fully explained to you.

Many companies offer attractive sign-up deals, including generous discounts or a free gift; however this can disguise the true nature of the contract. For example, you might find that you have now consented to pay a monthly subscription fee to their website or signed up to a lengthy contract without understanding the cancellation terms. It is therefore very important to *read the ‘Terms and Conditions’*, and if you do not understand, do not sign-up. A client recently had major difficulties with a company over its terms and conditions and she stated that **the “situation made me extremely stressed”**.

Face-to-face consumer contracts also carry risks. Being present gives the supplier the advantage of persistence, and owing to politeness, it can often be difficult to say no. Therefore, if you feel that you are being pressured and you do not fully understand, ask for more time. Take their details, seek help if necessary, and contact them again if you still wish to proceed.

You can get further advice from Citizens Advice Cotswold District which is open Monday-Thursday, 10am-3pm for drop-in sessions, and 10am-4pm for phone calls. To contact Citizens Advice Cotswold District, call: 0808 800 0511. Alternatively, visit our website for information or to find your local office: <http://www.citizensadvice-stroudandcotswold.org.uk/stroud-cab-online-advice.php> The Citizens Advice Consumer Service is also available to give advice on: 03454 04 05 06 (Monday-Friday, 9am-5pm).
